

### **Pesticide Application Notice 2023-2024**

The district maintains a registry of parents/guardians of students who have registered to receive written or telephone notification prior to the application of pesticides to school grounds. It is the School District's practice to restrict applications to days when school is not in session, whenever possible, and to use pesticides only when non-chemical solutions are ineffective.

To be added to the registry, please check "Yes". If you do not wish to be added to the registry, please check "No."

**Yes**

**No**

Notification will be given before application of the pesticide. Prior notice is not required if there is no imminent threat to health or property.
