NOTIFICATION TO ALL BUILDING OCCUPANTS

March 11, 2021

To all Parents, Faculty, and Staff:

In compliance with Illinois Department of Public Health regulations, we need to inform you that an asbestos abatement project will take place at J.T. Manning Elementary School over the School District's Spring Break. This asbestos abatement project will begin on March 29, 2021. This work will be completed in accordance with USEPA's AHERA standard in the former boys' locker room, in the former girls' locker rooms, and in the P.E. Instructor's office. These areas are respectively located on the northwest and southwest sides of the school building's gymnasium. Entry by building occupants and personnel into these areas will be restricted during these activities.

The subject spaces will not be occupied and will be off limits to students and staff. The abatement areas and access will be restricted from all other areas at all times. Additionally, the District's State-licensed asbestos professionals will oversee the project and monitor the air in and around the work area during the project.

The scheduled start date is March 29, 2021. It is anticipated that this work will be completed in approximately six (6) work days or by April 5, 2021. If there are any questions, please contact Mr. Joseph Smith, Facilities Director, at (708) 269-1338 cell or (630) 468-8179 office.

Sincerely,

Joseph Smith
Facilities Director
Community Unit School District 201
