## Westmont Junior High School

The Westmont Community Unit School District 201, Westmont Junior High School, and the Westmont Police Department have partnered to create an electronic device registration program for students and staff.

This program is a proactive crime prevention measure designed to reduce the amount of electronic device thefts in our schools. Due to the portable nature of these devices and the time sensitive information they possess, the importance of having certain information at the time of theft is imperative.

No attempt will be made at any time to collect any passwords or personal information stored on any electronic device. Students and staff will be able to register their electronic devices by filling out an electronic device registration form. This form will record the serial number, make, model, color, and a brief description of the student's electronic device.

Each electronic device must be present at registration. The information will be entered into a database accessible to the police and school administration. Students will also undergo a brief training session regarding theft prevention.

The student and device information will be deleted as students graduate and updated as needed if new devices are purchased and reported. The registration of an electronic device is not meant to replace a theft report, but it will act as another tool in the investigation of any stolen or missing item, and perhaps serve as a deterrent to prevent some thefts.

Registration is open for the duration of the school year. For more information, please contact the student's school office.
